Lazy Vbad level design. You have to hunt down enemies in large maze-like levels with no map and these large \u2665\u2665\u2665\u2665ing vegetables are in the way all the time. Boring and repetitive gameplay. Just garbage.. The gameplay is awful. You cut through life sized vegetables and jumping is buggy.

Achievements buggy too.. looks like \u2665\u2665\u2665\u2665ing isis. Mad Dagger is a platformer with simple graphics and gameplay. The main task is to kill all enemies on the level. You also can shred vegetables to path thru and collect coins. After a number of levels, we will encounter the first boss.

In general the game is cheap and you should not expect from it advanced technologies and gameplay innovations.
. If you were a vegetable cutter, what would be your life? The game gives a subtle answer to this question.

4 Words: DON'T BUY THIS GAME.

Only if you're a Achievement-Hunter or a rich man...

For the first one: Press TAB after the game started and after that press 1 to kill all enemys in the area. Press 2 to kill the boss instant.

This game is horrible, second worst game I've ever played. The controls are bad and inaccurate. The graphics are bad, a little bit like a cheap cartoon. Why the hell do we have to slice vegetables like onions, cucumbers or tomatoes?! But the worst thing are the terrible sounds.... another great platformer game with an already known funny character of an eastern man - while in previous game we were gathering moccassins, this time we are fighting some evil police force being an FBI agent - there are lots of levels, bosses, enemies, weapons - easy to make a perfect game as there are only 6 achievements.. Worst game I played so far on steam.

At least the agony was quick:

Start the game.

Press Tab

Spam 1,2

Finish the game with 100% acievements in 20 seconds.

Uninstall.

Cry in the bed feeling violated.

(I had this... erm... gamelike thing... minialized in the tray for 4,30min just to write this review.. This should not be on Steam..

Nice indie game with good graphic and low price, what else do you need?. + the boss fights are cool

- way too large maps where you often end up searching the last enemies, blocked with flying fruits

- no tutorial or reference at all, even had to figure out controls on my own

- no controls config, on German key layout it plays horribly

- soundtrack got annoying fast

Overall, it is not worth its price.. Unpretentious, cheerful game. To find all and to win. Different levels and bosses. Attack to a key Z. There is nothing supernatural :). Mad Dagger - cool platform game about a crazy man with a katana who has to destroy enemies and pick fruit.Good graphics,cool sounds.Interesting gameplay.Recommend
